GENERAL FOREIGN NEWS. The Spanish Cabinet Crisis.

By cable to the Dispatch. MADRID, October 12 .- The leaders of the Dynastic Left will not be able to decide to accepting positions in the new Cabinet until they know the programme to be adopted by Senor Posada-Herrera. They will hold a consultation with him to-day. The Left is willing to postpone the consideration of the question of constitutional reform, but will insist upon the adoption

of universal suffrage.

Paris, October 12.—It is reported here that Senor Moret, a leading member of the Spanish Democratic Club, is to be appointed Spanish Minister of Foreign Affairs.

RADICAL CUUE, a pure distillation of Witch Hazel, Am. Pine, Ca. Fir, Marigold, Clover Blossoms, office would be regarded here as signifying

the close of the Alfonso incident, LONDON, October 12.—A dispatch from Madrid to a local news agency says Senor Camacho has declined to continue as Minister of Finance in the new Cabinet, as be is reluctant to trust his projects for financial reforms to a coalition Cabinet.

The Madrid correspondent of the Times

states that King Alfonso will grant to Senor Posada Herrera power to dissolve the Chamber of Deputies, which will make the new Ministry more independent than previous Cabinets.

Madrid, October 12.—At 10 o'clock to-night the Cabinet crisis was still unsettled. At an interview between Senor Posada Herrera, Senor Moret, and Marshal Seriano, Senor Moret explained the conditions upon which the Dynastic Left would enter the Cabinet. Besides the questions of universal suffrage and constitutional re-form, disputes exist concerning the distribution of portfolios. Señor Posada Her-rera considered the conditions somewhat hard, and said he would impart his deci-sion later. Marshal Serrano thereupon summoned the leaders of the Dynastic Left, while Scnor Posada Herrera held a conference with Senor Segasta. The latter refused to accept the principle of univer-

There is much animation in political circles here, and all sorts of rumors are cur rent. It is stated a telegram has been re-ceived by the Government from the Duc de Fernan Nuvez, Spanish Ambassador at Paris, stating that the French Government would make no further apology through the Journal Official for the ill treatment of King Alfonso, but that the Cabinet author ized the Spanish Government to publish in Madrid the Official Gazette's narrative of President Grevy's reparation, and communicate the same to the Cortes.

El Borreo says that Senor Posada Her

rera and the leaders of the Dynastic Left have arrived at an agreement, with the ex-ception of some slight details.

Forty Lives Lost by Inundation. Madrid, October 12.—The valley of La Estella, in the province of Tervel, has been mundated. Sixteen houses were destroyed, and over forty lives lost.

The Glossograph. AN INSTRUMENT FOR RECORDING SPEECH AU

TOMATICALLY. One of the most interesting exhibits a

the Vienna Electrical Exhibition is Gentilli's glossograph, a little instrument by which speech is automatically reproduced as soon as it is uttered. A small apparatus
is placed in the mouth of the speaker—in contact with the roof of his mouth, his tongue and lips-and on being connected with an electro-magnetic registering apparatus the sounds are committed to paper. It is constructed in such a manner as not to cause any inconvenience to the speaker; neither is it necessary that the voice should be raised, as it reproduces a whisper as exactly as a shout; the only condition is a correct and distinct articulation. According to the inventor's calculation, it will be possible to write four or five times as fast by means of the glossograph as has hitherto been possible even be e quickest writer. At first sight it appears as if this invention were but an improvement upon Edison's pho-nograph; it is, however, of a nograph; it is, however, of a much older date. It rests, unlike the former, on an acoustic principle, and does not reproduce the sounds in a microscopical form. The chief obstacle to the intro-duction of the glossograph, says the Pall-Mall Gazette, will be the difficulty in deci-phering the characters; but it is not impossible that with the help of a second automatic apparatus the characters produced by the glossograph may be translated into our common type-writing. The orthography would doubtless appear strange, but in these days of phonetic

spelling this might not long be a hindrance MARINE INTELLIGENCE. MINIATURE ALMANAC-OCT. 13, 1883. Sun rises 6:10 High Tipe. Sun sets 5:22 Morning 1:47 Moon sets 2:50 Evening 2:15
